## TREATED BUILDINGS

**QUALITY** Material

**QUALITY** Construction

**QUALITY** Workmanship

*Built by Amish Craftsmen*

Serving the building industry since 2003, the professionals at Backyard Portable Buildings, LLC. ensure you receive a quality building according to your wishes and your complete satisfaction is priority one.

- All exposed material is pressure treated & has a lifetime warranty by the manufacturer against decay & termites
- Pressure treated 2x6 floor joists (8' wide PT 2x4) set into notched pressure treated 4x6 skids & heavy duty engineered flooring (Adventech or similar product)
- Pressure treated T-111 wooden siding (kiln dried after treatment to prevent warping and shrinking)
- Buildings are sprayed with stain & water sealer to protect and keep your building looking beautiful.
- Exposed nails are ring shanked and hot dipped for maximum strength and no rust spots or stains.
- The 2x4 reinforced doors are designed to seal out rain & rodents & are key locked for your protection.
- Series of air vents positioned to create optimum circulation & temperature control.
- You choose shingle or metal roof, same price.

8' wide comes w/ 4' door. 10' & 12' comes with a 5' door. Additional doors or windows can only be placed in end walls. Upgrade your 5' door to double 6' doors for \$75 (10' & 12' only).

## Construction Techniques

**SKIDS:** Our buildings are built on ground contact, forty (40) year rated, CCA treated, 4 x 6 skids. These skids are notched 1/2" everywhere a floor joist crosses it.

**FLOOR JOISTS:** Our buildings are built on pressure treated 2 x 4 floor joists on 8' bldgs; 2x6 on 10' and 12' bldgs. Spaced on 16" centers that are toe-nailed into 1/2" notches in each 4 x 6 skid. Garage buildings are built with 2 x 6 floor joists spaced on 12" centers.

**FLOOR DECKING:** We use heavy duty tongue and groove engineered flooring (Adventech or similar product) on our floors. We feel this is the best flooring for most applications. Pressure treated flooring is available at the customer's request at no additional charge. This provides a very robust flooring system that provides ample support for just about anything a customer may wish to place in their building.

**WALLS:** In our treated series, construction is 2x4 framework with studs on 2' centers with other stud being doubled due to our siding manufacturer's specifications. We use premium pressure-treated, kiln-dried T-111 siding on our treated series. In our painted series, we have all 2x4 framework with studs on 16" centers due to siding manufacturer's specifications. We use Engineered Wood panel Panel for Siding our painted buildings .

**STAIN:** Our treated buildings are sprayed with a five year, honey gold stain and sealant. This provides extra protection and

gives your building a beautiful finish. We do not spray on-site buildings.

**PAINTED:** We spray two coats of a high quality Sherwin Williams paint. This provides a water-tight sealant creating long lasting durability for your building for years to come.

**DOORS:** All of our buildings come with shop-built 2 x 4 reinforced doors with three steel T-hinges per door. Eight foot (8') width buildings come with a single 4' door (46" actual clearance); this is wide enough for most 42" cut lawn tractors. Ten and twelve foot width buildings come standard with a 6' wide pair of doors (70" actual clearance). The exceptions to this rule are the Portable Cabins and Portable Garages. These buildings come standard with a residential, factory made house door. Garages also come with a roll-up garage door.

**WINDOWS:** We offer 2x3 and 3x3 aluminum windows which come standard or you can choose to add thermal pane windows.

**ROOFING:** We use 30 yr. rated asphalt/ fiberglass roofing shingles. We also offer 40yr 29 Gauge Metal roofing in a variety of colors ask you dealer for more info.

**ROOF DECKING:** We use 7/16" o.s.b. or plywood for roof decking.

**TRUSSES:** We make our own trusses of 2 x 4 construction with truss plates. (engineered stamped)

**VENTS:** Our buildings are all gable vented to reduce heat and prolong the life of the roof shingles. This also lessens the chance of mold or mildew problems. We also offer ridge vents for an additional fee.

**TRIM:** All exterior trim is made from pressure treated 1 x 4's on treated buildings and Smart Wood trim on painted bldgs.

**FASTENERS:** All exterior fasteners are zinc coated ring shank nails which resist rusting and provide exceptional holding strength.

**DRIP EDGE:** All buildings come standard with aluminum drip edge to keep the shingles from sagging and to give the building a neat finished appearance.

Painted

Urethane

### Introducing Our Treated Urethane Building

- Urethane buildings are built out of the same materials as our painted series. Rather than painted, they are sprayed with a Urethane stain with a 10 year no fade guarantee. Trim can be the same Urethane color as the building or can be chosen from the paint colors (Contrasting trim colors can only be chosen from paint colors.). Our Urethane buildings offer a rustic stain look with very low maintenance.

## DELIVERY INFORMATION

Orders typically take 10-15 business days (Custom orders may take a few additional days). Buildings off lot can typically be delivered within 3-7 business days. A Backyard Delivery Professional will contact you a few days before delivery to schedule delivery date & approx. time.

Backyard is not responsible for damage to yards, driveways, or underground utilities. It is the customer's responsibility to ensure ground conditions are suitable. Buildings are transported from the trailer to your yard with a mule (a miniature forklift on flotation tires designed for building delivery to ensure minimal damage to yards).

Customer is responsible for building permits, homeowners association, & covenants. Engineered blueprints are available from Backyard Buildings.

**FREE DELIVERY** includes 1 trip within 50 miles of any Backyard dealer. Extra trips will incur additional charge.

## DEALER INFO:

## RENT TO OWN...

was established as an alternative to mini-warehousing. Our no strings plan allows you to have your own storage facility for your backyard or business, when and where you need it. The low monthly lease rates are comparable to mini-warehousing rates per square foot.

You are not required to fill out a credit application, nor are you required to keep your building.
